

## case study

**Gilbert Energy Services, Inc.**  
**Cheri Gilbert, vice president**

### **summary:**

Needed a comprehensive Windows accounting system with good reports and the ability to download and share the files.

### **product:**

Accounting Manager (AM)

### **problem:**

As an oil and gas independent consultant, Cheri Gilbert needed a comprehensive accounting system to run for her business so she could handle everything her oil and gas clients needed her to.

### **solution:**

Gilbert purchased the Accounting Manager along with several optional modules including the land management, authorization for expenditure (AFEs) and payroll modules so she could handle the distributions of her oil and gas consulting clients. She also began training and consulting with off-site clients who also use SherWare..

### **result:**

Since using SherWare since 2003, Gilbert said she's experienced complete satisfaction and a beneficial relationship.

"Your support is great, you listen and provide what your clients' request, the software is user-friendly and fairly easy to teach newcomers in oil and gas," said Gilbert, vice president of Gilbert Energy Services, Inc. "What are you waiting for? SherWare's the solution!"
